Arroyo Colorado River Closure

Issue Date: April 1, 2025

Due to recent surveys conducted by the U.S. Coast Guard and Army Corps of Engineers, the U.S. Coast Guard Captain of the Port (COTP) Corpus Christi has deemed the Arroyo Colorado River unsafe for navigation by all mariners and is closing the waterway. No vessel may enter, transit, or remain within the Arroyo Colorado River until such time as water level recedes, current speed reduces, critical aids to navigation are corrected, and the COTP deems it safe.

Concerned parties with urgent concerns can contact the U.S. Coast Guard Sector Corpus Christi Command Center at 1-800-874-2143; or for non-urgent questions and concerns, email CCWaterways@uscg.mil.
